

SH-L Series Shunt Resistors

These interchangeable shunts are used to multiply the measuring range of current of measuring instruments.

APPLICATIONS:

Telecommunications equipment, electric cars, aerospace, charging stations, electroplating power equipment, instruments and meters, DC power systems, etc.

GENERAL SPECIFICATIONS

Model	Rated Current[A]	Rated Voltage[mV]	Resistance Range[mΩ]
SH-L	1~50	10~800	10~16
1A~2500A	51~2500	10~300	0.2~0.12

CHARACTERISTICS

Ambient condition	-25℃~40℃
Relative humidity	≤80%(35℃)

DIMENSIONS

SH-L 1A-300A B

Model	Dimensions(mm)																
	25mV			50mV			60mV			75mV			100mV			Common	
	A	B	C	A	B	C	A	B	C	A	B	C	A	B	C	D	M
1A-125A																20	6
